

Kaleidoscope

— Award winning toys —

100% Australian Company

2018 Catalogue

In 1989 Kaleidoscope was founded with the goal of providing high quality toys and children's products to the Australian market. Managing Director, Jos Benner saw a need for interactive and educational toys that encouraged children to think, learn and develop essential skills in a creative and fun way. From small beginnings as a home business it is now a market leader in the Australian Specialty toy industry, with a substantial warehouse facility. Kaleidoscope continues to provide high quality toys, games, crafts and lifestyle products designed specifically for children.

The continuing growth of the business is greatly due to the relationships developed with suppliers and manufacturers in a constantly changing market. Kaleidoscope takes pride in ethical and sustainable production methods using natural products where possible. Our product ranges are designed and manufactured to the highest standards in safety, quality, and environmental sustainability, and this is reflected in the wealth of awards that these products have won over the years.

Kaleidoscope is a member of the Australian Toy Association, is part of the ICTI program for promotion of ethical manufacturing and fair labour treatment, and the FSC program which promotes responsible management of plantation forests. Proudly 100% Australian owned and operated.

The loyal customer base and well-known brands are a large part of the success of Kaleidoscope. Retailers and retail customers have come to expect quality, reliability and after sale service from the customer service and warehouse team.

If you have any questions please contact Kaleidoscope.

Our Brands

Bonikka presents an extensive range of handcrafted cloth dolls. Crafted with care using natural rubber and fabrics produced using best practices in organic, chemical free growing and production.

Bonikka donates from the sale of every doll to Mending Hearts.

More than just toys, **Djeco** presents four different ranges that encourage children to learn and create.

Djeco main range focuses on toys, games and puzzles for newborn through to adult that teach, develop and entertain. The extensive variety including role play, jigsaw puzzles, card and board games as well as baby and toddler toys that aid development and encourages social interaction.

Djeco Art and Crafts encourage children to develop their fine motor skills and imagination through elegant designs and gradual skill progressions.

Lovely Paper range of stationery has recurring artistic themes that promote a return to the art of written communication with beautiful cards, books and stationery items.

Little Big Room understands how a creative environment can influence a child's development. Djeco presents beautiful themed items for bedrooms and living.

The **Folkmanis** range of every-day, exotic and fantasy puppets have an international reputation for excellence in craftsmanship and detail. More than a toy, Folkmanis puppets allow the child the opportunity for open ended play while encouraging language skills, fine and gross motor skills and the child's interest in the natural world.

Kiddie Connect has designed a range of attractive, wooden, quality educational toys that teach the introductory concepts of maths, language and environment through puzzles and role play.

Kiddie Connect has a new line of occupational dress-ups for role play suitable for children aged three to five years.

Children learn by imitation and the **Le Toy Van** range of role play toys cover all aspects of a child's day to day life and the familiar scenarios around them. Castles, fairies and pirates allow children to create their own worlds and develop their imagination. The **Petilou** range has simple characters and bright colours perfect for the very young. Made with sustainably produced rubber wood with hand finished detailing, these toys are designed to be passed down through families.

Best known for the development of the Original Lock Activity Box, **Mamagenius** takes pride in producing traditional wooden toys and puzzles designed to stimulate the development of hand-eye coordination, fine motor and gross motor skills. Quality toys, beautifully painted and designed to be passed on to the next generation.

Manhattan Toy recognises that children are profoundly influenced by toys. Understanding the importance of colour and texture to the intellectual development of babies, Manhattan have included Wimmer Ferguson toys and accessories in their range as well as developing the Skwish and other rattles and teethingers.

Designed in Sri Lanka, the **Meiya & Alvin** range of baby teething, rattles and books perfectly capture the innocence of childhood. Meiya the Mouse and Alvin the Elephant are now being joined by new characters as the range expands.

Animal figures so realistic you expect them to move, fantasy creatures and characters from history and legend, **Papo** presents figurines to inspire and educate. Dinosaurs, pirates, knights, fairies, wild and domesticated animals and all manner of enchanted characters provide children with a diverse world to unleash their imagination.

Papo is a member of the WWF SME Club.

Tender Leaf Toys present a range of educational toys that promote learning through play. Tender Leaf Toys have taken traditional toys and given them a makeover to suit the modern playroom or nursery. Awarded the ICTI seal of approval for promotion of ethical manufacturing and fair labour treatment.

The **Tikiri** range of toys for babies and toddlers is an introduction to a world of imagination. Friendly unicorns and delightful dragons join farm and zoo characters to enhance children's physical and emotional development. Made from pure natural rubber and organic fabrics, Tikiri ensures their toys are suitable for all children.

Created by a couple of bicycle loving Dutchmen, **Trybike** provides children with a way to develop the skills needed to become confident cyclists. Manufactured using high quality materials including marine birch plywood and spoked inflatable rubber tyres, Trybike is built to last.

Designed in Australia to promote the development of gross motor skills in children at the cusp of walking through to toddlers. The **Wheely Bug** has a large range of familiar characters designed to appeal to any child. They are available in wipe clean polyurethane leatheroid or in the new range with removeable plush covers. The small Wheely Bug suits children from 12 months to three years, the large for three to five years.
