

Kaleidoscope

—Award winning toys—

100% Australian Company

2020/21 CATALOGUE

In 1989 Kaleidoscope was founded with the goal of providing high quality toys and children's products to the Australian market. Managing Director, Jos Benner saw a need for interactive and educational toys that encouraged children to think, learn and develop essential skills in a creative and fun way. From small beginnings as a home based business, we are now a market leader in the Australian Specialty toy industry, with a substantial warehouse facility. Kaleidoscope continues to provide high quality toys, games, crafts and lifestyle products designed specifically for children.

The continuing growth of the business is greatly due to the relationships developed with suppliers and retailers in a constantly changing market. Kaleidoscope takes pride in ethical and sustainable production methods using natural products where possible. Our product ranges are designed and manufactured to the highest standards in safety, quality, and environmental sustainability, and this is reflected in the wealth of awards that these products have won over the years.

Kaleidoscope is a member of the Australian Toy Association, is part of the ICTI program for promotion of ethical manufacturing and fair labour treatment, and the FSC program which promotes responsible management of plantation forests. Proudly 100% Australian owned and operated.

The loyal customer base and well-known brands are a large part of the success of Kaleidoscope. Retailers and retail customers have come to expect quality, reliability and after sale service from the customer service and warehouse team.

If you have any questions please contact Kaleidoscope.

Our Brands

Bonikka presents an extensive range of handcrafted cloth dolls. Crafted with care using natural rubber and fabrics produced using best practices in organic, chemical free growing and production.

From the creative geniuses at Trybike we are excited to introduce **CoConuts** Helmets. Children will love the funky and playful designs. Each helmet is crafted with an ABS hard quality plastic outer shell with a lightweight inner shell featuring foam pads and a spin dial in the back to ensure comfort and the perfect fit. CoConuts also feature 11 air vents keep children cool and adjustable chin straps with quick-release buckle. Tested for Australian Safety Standards.

Playful learning through music & sounds! The delightful **Ditty Bird** musical books, for children from 6 months, help develop early language skills, auditory development and music appreciation.

Djeco presents four different ranges that encourage children to learn and create.

Djeco Main Range focuses on toys, games and puzzles for newborn through to adult that teach, develop and entertain. Djeco products are designed to aid development and enhance social interaction.

Djeco Art and Crafts encourage children to develop their fine motor skills and imagination through elegant designs and gradual skill progressions.

Lovely Paper range of stationery has recurring artistic themes that promote a return to the art of written communication with beautiful cards, books and stationery items.

Little Big Room understands how a creative environment can influence a child's development. Djeco presents beautiful themed items for bedrooms and living.

The **Folkmanis** range of every-day, exotic and fantasy puppets have an international reputation for excellence in craftsmanship and detail. Puppets allow the child the opportunity for open ended play while encouraging language skills, fine and gross motor skills and the child's interest in the natural world.

Kiddie Connect has designed a range of attractive, wooden, quality educational toys that teach the introductory concepts of maths, language and environment through puzzles and role play. Solid chunky pieces, bright colours and simple designs make this range ideal for use in day-care, kindergartens and schools as well as the home.

Kiddie Connect has a new line of occupational dress-ups for role play suitable for children aged three to five years.

Children learn by imitation and the **Le Toy Van** range of role play toys cover all aspects of a child's day to day life as well as allowing children to create their own worlds and develop their imagination. The Petilou range has simple characters and bright colours perfect for the very young. Made with sustainably produced rubber wood with hand finished detailing, these toys are designed to be passed down through families. Le Toy Van is renowned for their ethical standards across all areas of manufacturing and development.

Best known for the development of the Original Lock Activity Box, **Mamagenius** takes pride in producing traditional wooden toys and puzzles designed to stimulate the development of hand-eye coordination, fine motor and gross motor skills.

Manhattan Toy understands the importance of colour and texture to the intellectual development of babies. Manhattan have included Wimmer Ferguson toys and accessories in their range as well as developing the Skwish and other rattles and teethers.

Designed in Sri Lanka, the **Meiya & Alvin** range of baby teethingers, rattles and books perfectly capture the innocence of childhood. Meiya the Mouse and Alvin the Elephant are now being joined by new characters as the range expands.

Tender Leaf Toys present a range of educational toys that promote learning through play. Tender Leaf Toys have taken traditional toys and given them a makeover to suit the modern playroom or nursery. Awarded the ICTI seal of approval for promotion of ethical manufacturing and fair labour treatment.

The **Tikiri** range of toys for babies and toddlers is an introduction to a world of imagination. Friendly unicorns and delightful dragons join farm and zoo characters to enhance children's physical and emotional development. Made from pure natural rubber and organic fabrics, Tikiri ensures their toys are suitable for all children.

TRYBIKE provides children with a way to develop the skills needed to become confident cyclists. Trybike easily converts from trike to balance bike, with adjustable seat height, allowing the bike to grow with the child. Designed in the Netherlands and manufactured from high quality materials, Trybike is built to last.

Designed in Australia to promote the development of gross motor skills in children at the cusp of walking through to toddlers. Multi directional wheels allow the child greater independence of movement. The **Wheely Bug** has a large range of familiar characters designed to appeal to any child. The small Wheely bug suits children from 12 months to three years, the large for three to five years.
