2025/26 CATALOGUE

## Our Brands

**Bonikka** presents an extensive range of handcrafted cloth dolls. Crafted with care using natural rubber and fabrics produced using best practices in organic, chemical free growing and production.

**Coconuts** Helmets are created by the cycling geniuses at Trybike. With colours to match the Trybike range, each helmet is crafted with safety, comfort, and ease of use in mind. Featuring a quick release magnetic buckle, adjustable liner and chin strap, foam pads, and air vents. Tested for Australian Safety Standards.

**Djeco Main Range** focuses on toys, games, and puzzles for newborn through to adult that teach, develop, and entertain. Djeco products are designed to aid development and enhance social interaction.

**Djeco Arts and Crafts** encourage children to develop their fine motor skills and imagination through elegant designs and skill progressions. Kits from 18 months to 99 years!

**Djeco Lifestyle** includes a range of stationery that promotes a return to the art of written communication with beautiful cards, notebooks, and pens. Djeco Lifestyle also presents gorgeous items for bedrooms and living.

The **Folkmanis** range of everyday, exotic, and fantasy puppets have an international reputation for excellence in craftsmanship and detail. Puppets provide opportunity for open ended play, communication, and imaginative play, while developing fine and gross motor skills, language abilities and social skills.

**Great Pretenders** presents a range of quality dress ups, dolls, and accessories from Canada. Pretend play encourages children to develop their imagination, communication, and creative thinking skills and express their feelings.

**Kiddie Connect** has designed a range of quality wooden puzzles with solid chunky pieces, bright colours, and simple designs. Ideal for use in educational settings as well as the home.

The **Le Toy Van** range of role play toys allow children to create their own worlds and develop their imagination. Made with sustainably produced rubber wood with hand finished detailing. Le Toy Van are market leaders in sustainable packaging and plastic free toys.

**Mamagenius** takes pride in producing traditional wooden toys designed to stimulate the development of co-ordination, problem solving and motor skills.

**Manhattan Toy** understand the importance of colour and texture to the intellectual development of babies. The range includes teething, plush, soft books and dolls to suit any child. Manhattan is the home to Lego plush.

**Mentari** – established in 1988 Mentari are dedicated to crafting beautiful wooden toys that inspire creativity and facilitate learning through play. They are committed to sustainability using responsibly sourced wood from Indonesian plantations.

**Sam & Julia** – With a focus on sustainability, Sam & Julia is a truly unique family company that encompasses friendship, community, curiosity and resourcefulness. The range includes story books, plush figurines, D.I.Y. room and furniture sets, miniature room decorations, and more. Based on her own childhood, Karina Schaapman created the Mouse Mansion as a safe and adventurous place in which children can escape and are free to explore.

With 25 years of experience, **Sassy Baby** collaborates with experts to create toys that entertain and support infant growth. Their products feature high-contrast patterns and vibrant colors, designed to stimulate senses and encourage exploration, solidifying their legacy as the original developmental toy company.

**Tender Leaf Toys** have a selection of educational toys that promote learning through play. Tender Leaf Toys have taken traditional toys and restyled them to suit the modern playroom or nursery. Awarded the ICTI seal of approval for promotion of ethical manufacturing and fair labour treatment.

The **Tikiri** range of toys for babies and toddlers have animals and characters in rubber and plush enhance physical and emotional development through play. The GOLS (Global Organic Latex Standard) accreditation means that Tikiri toys are giving your baby the safest, most eco-friendly toys on the planet.

**TRYBIKE** provides children with a way to develop the skills needed to become confident cyclists. Trybike easily converts from trike to balance bike with adjustable seat height. Designed in the Netherlands and manufactured from high quality materials.

**Yvolution** are true innovators that create incredible balance bikes, trikes, scooters and skates for all ages. Each product is designed with a focus on safety, comfort, user experience and, of course, fun! Since its inception in Ireland in 2009, Yvolution has successfully launched fresh product lines in over 40 countries worldwide. Among its notable products is the innovative Flipper 4-in-1 trike that adapts as children develop, and the revolutionary Velo Junior balance bike reshaping how kids learn to ride.

**Wheely Bug** has an appealing range of familiar characters. Designed in Australia to promote the development of gross motor skills in children at the cusp of walking through to toddlers. Multi directional wheels allow the child greater independence of movement.

In 1989 Kaleidoscope was founded with the goal of providing high quality toys and children's products to the Australian market. Jos Benner saw a need for interactive and educational toys that encouraged children to think, learn and develop essential skills in a creative and fun way. From small beginnings as a home-based business, it's now a market leader in the Australian Specialty toy industry, with a self-managed warehouse and office facility in Brisbane. Jos is still very involved in the business today, and along with her son James McDowell, and the team of office and warehouse staff, Kaleidoscope continues to provide high quality toys, games, crafts, and lifestyle products designed specifically for children.

The continuing growth of the business is greatly due to the relationships developed with suppliers and retailers in a constantly changing market. Kaleidoscope takes pride in ethical and sustainable production methods using natural products where possible. Our product ranges are designed and manufactured to the highest standards in safety, quality, and environmental sustainability, and this is reflected in the wealth of awards that these products have won over the years.

Kaleidoscope is a member of the Australian Toy Association. Proudly 100% Australian owned and operated.
