

Introduction

Write On – Wipe Off books are engaging, versatile learning tools that can be enjoyed over and over again. The pages are highly durable and allow for easy erasing. These books work with all dry-erase markers and resist ghosting—the remnants of faint print marks. Fill each page and then just wipe away and start again! To ensure your child can use these pages many different times, make sure they erase their writing fairly quickly after the ink dries. Do not leave writing on the page for an indefinite amount of time, otherwise it may be hard to erase.

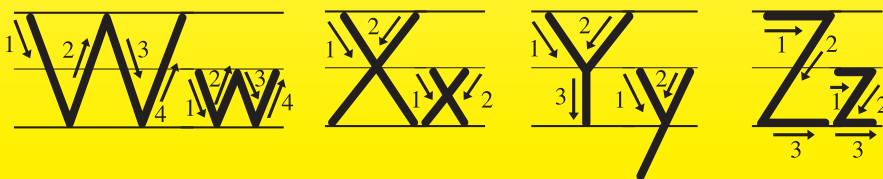

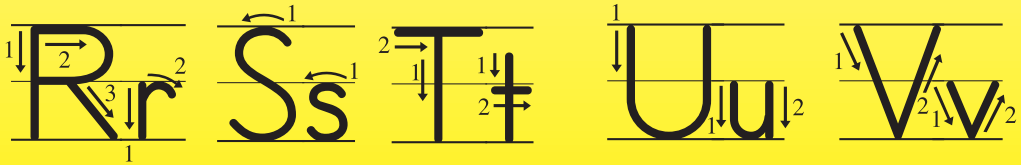

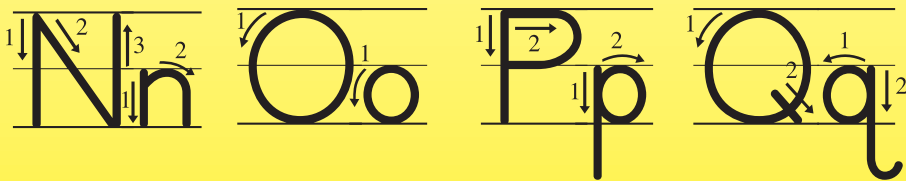

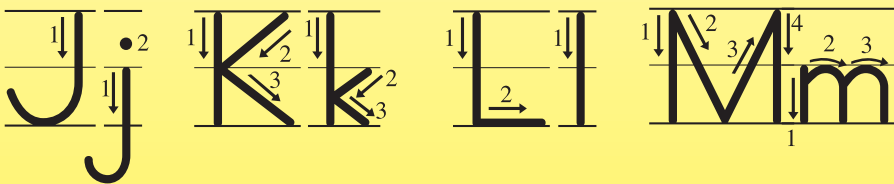

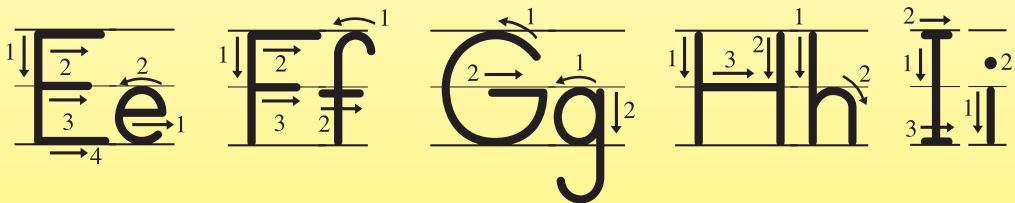

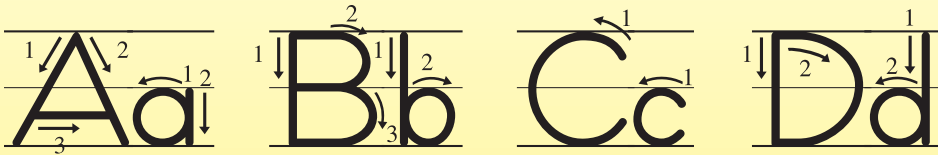

When students can recognize and write the letters of the alphabet automatically, they are freed up to focus on content and meaning. Being able to write fluently is a skill all children need to learn in order to convey their thoughts and ideas clearly. Being able to print legibly is very important in school. This book helps reinforce basic printing skills in a fun and colorful way.

On these pages, children will practice writing the correct form of each uppercase and lowercase letter. They will practice writing from left to right and top to bottom, and practice writing legibly by using correct form, size, and spacing.

Look through the pages with your child and review the different letters they will write. Have them practice a few with you before going on to work on the book themselves. If they struggle with a letter, point out clues to help them discover the correct method to write it themselves. The best part is that if they make a mistake, they can just wipe it away and try again!

Let's get started!

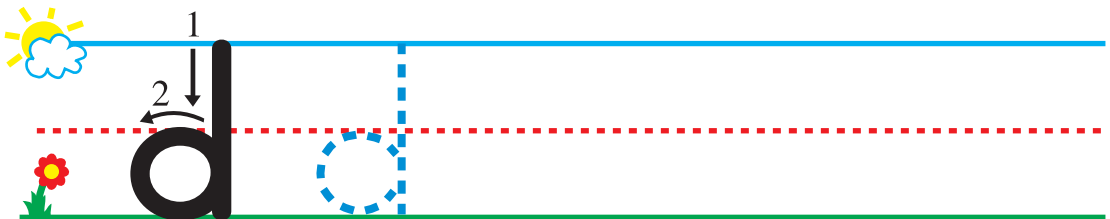

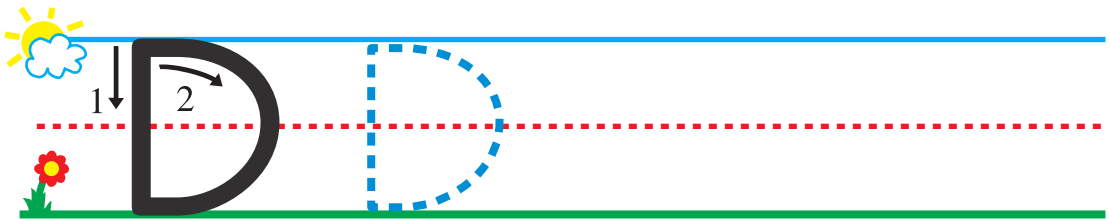

The Alphabet

The Letter "D"

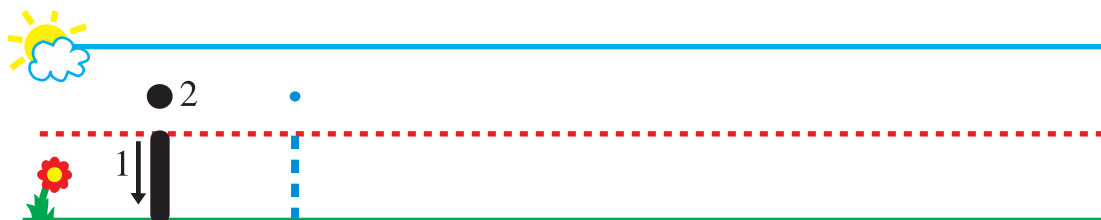

D is for duck.

The Letter "I"

I is for ice cream.

What Comes Next?

Directions: Write the next letter in each series.

A B C D _____

R S T U _____

K L M N _____

G H I J _____

C D E F _____

V W X Y _____

P Q R S _____

I J K L _____
